Daily Schedule :

GENERAL BOARDING POLICIES:

BORDETELLA INFORMATION

Dogs that board anywhere may contact an upper respiratory virus. We require proof that your dog has been updated with Bordetella. If your pet should contract a virus while boarding, you will be charged an in-office visit charge when treated for any medication associated with treating this cough.

I have read and understand the information stated above regarding Bordetella.

Initials

VACCINATION POLICY

It is our policy that all pets must be current on vaccinations to board. It is best to have vaccines at least 7 days prior to boarding, otherwise vaccines may not provide the coverage needed to keep your pet safe.

Dog shots required are: DHA²LPP, Bordetella (kennel cough), and Rabies.

I have read and understand the information stated above regarding the vaccination policy.

Initials

FLEA PREVENTION POLICY

All Pets are required to have a flea preventive. There are no exceptions. If not, we may administer a flea pill to ensure that no fleas are introduced to our boarding facility. This is a standard of care that is in place to protect your pet and the pets staying with us.

I have read and understand the information stated above.

Initials

BOARDING RATES:

Charges are based on a “per night” basis. Boarding rates are determined by the dogs age and needs. We do offer discounts for additional pets from the same household and for long term boarding.

UNFORSEEN ILLNESS/INJURY:

In the event your pet gets ill or injured while boarding and we are unable to reach you, I authorize my pet to be treated for anything the vet deems appropriate and understand I will be responsible for the charges incurred.
